Application for Pilot Project
eReserves

As Mortvedt Library continues its eReserve pilot project, we are expanding the number of courses we will be able to support for spring semester, 1999. Because this project is in development, we can only accept a limited number of requests.

Goals:
- To provide easier access to reserve materials
- To give students a choice of reserve formats (paper copy or on-line)
- To reduce congestion and waiting time at the library copy machines
- To create the convenience of 24-hour access to reserve materials

Priorities:
- To reach the nontraditional student who has difficulty accessing the reserves collection
- To provide ready access to faculty developed materials such as sample tests, lab manuals, class notes, etc
- To meet the high demand of reserves resources for large classes

Please review the eReserve Guidelines before you fill out the application form.

Applications for spring term should be submitted to the Reserves Desk one month before materials are needed. For more information contact Sharon Chase, 535-7502 (chasesg@plu.edu) or Pat Auyong, 536-5018 (auyongph@plu.edu).

Name (last, first)

E-mail address

Your Department

Your Telephone Number

Course Number and Title

Estimated class size:

Your experience using the web in teaching:
List type of materials you expect to place on as eReserves and the approximate number of pages. (Example: 6 journal articles.....total of 40 pages)

Please check the format(s) you will use to submit materials you have developed. For example, sample tests, class notes and outlines.

___Electronic format               ___Paper copies to be scanned

Expected Benefits:
